

The Right Choice in 1800 Series Spray Heads

Available in 2", 3", and 4" pop-up heights: perfect for watering most grass areas. 6" and 12" models provide superb irrigation for shrubs and flower beds. A wide selection of nozzles are available for a tailored irrigation system that ensures accurate water delivery.

With Rain Bird® 1800 Series Spray Heads, you no longer need to have a green thumb to have a beautiful landscape. These durable, dependable spray heads work like magic to meet all your yard's watering requirements, year after year. Whether they are used in small or large grass areas or in flower beds, the 1800 Series Spray Heads will do the job right.

Outstanding Features:

- Innovative design ensures even water distribution with no brown spots.
- High impact polymer construction stands up to the elements, year after year.
- Built-in pressure regulator option eliminates wasteful misting.
- A patented pressure-activated wiper seal provides optimum pop-up and pop-down reliability, while reducing water waste.
- Unique Seal-A-Matic™ option prevents puddling and run-off that can erode a landscape.
